2. Claims 31 and 36 are allowed.

3. The following is an examiner's statement of reasons for allowance:

With respect to claims 31 and 36, the prior art discloses an x-ray sensitive camera that comprises: a casing; a first x-ray sensitive image detector; a second x-ray sensitive image detector; and adjustment means for causing the first image detector or the second image detector to assume correct alignment relative to an x-ray emitter. However, the prior art fails to disclose or fairly suggests a second x-ray sensitive image detector positioned behind the first x-ray sensitive image detector with x-ray sensitive surfaces of the first x-ray sensitive image detector and the second x-ray sensitive image detector facing in opposite directions.
